

NOTICE: Treetops Landscape Design Inc. will use a combination of natural lawn care and traditional weed control on the St. Monica grounds. They will apply chemical weed control along the Silver Spring side of the parish grounds to the rectory and along Santa Monica Blvd. up to the handicap ramp. The first application will be done by June 1st. Additional applications will be made at the end of June, end of August and beginning of October. Please keep children and animals off of those areas when you see the warning flags posted.

A new irrigation system is being installed along Silver Spring Ave., Santa Monica Blvd. and the north side of the Ministry Center. Precautions are being taken to cordon off the areas while working and covering all trenches before leaving at night. Please caution children to avoid playing in those areas until this work is completed which should be by June 10th.
