

An Exemplary Recognition K4-8 School

ST. MONICA SCHOOL

"Learn, live, and love through Jesus..."

Dear St. Monica School Families,

On Friday, the school and office staff worked for more than ten hours on the new StandardsScore report cards.

Due to the high volume of other schools throughout the country also processing and printing their report cards through StandardsScore, our report cards needed to be generated twice and each process lasted more than three hours. This severely delayed the printing process. We learned a lot and feel we now have a clearer understanding of how to proceed in the second quarter.

Report cards will be going home tomorrow, November 8th, because we were unable to print them on Friday night.

Please note that for this marking period there will be no standard proficiency indicators under Physical Education. This was due to a change in the standards for physical education that occurred last week after grades were complete.

Thank you for your understanding and patience as we work through all the details of StandardsScore.

November Conferences:

It has recently come to my attention that many school families have planned vacations during the conference dates set for November 21st and 22nd. Asking teachers to reschedule on their time is difficult especially in the Junior High when many conferences are set up as group conferences with multiple teachers. Conference dates have been set since August. These two days set aside for conferences are the dates where teachers are prepared and available to meet with parents and students to discuss progress. Please note that there is no guarantee that teachers can reschedule a conference date if you choose to not attend on either the 21st or 22nd of November. Thank you for understanding.

Sincerely,

Mrs. Julie Ann Robinson
