

An Update From MILESTONES:

St. Monica School's Onsite Childcare Programming Provider

During November we explored the world of Animals. We have been spending one week devoted to a different animal group. We started with mammals, followed by birds, fish, reptiles, and lastly amphibians. We discovered what makes an animal belong to a specific animal group, as well as the different stages of life, what animals eat, and how they make their homes.

Many of our activities and games this month also had elements of our weekly themes included in them such as tag games involving an "animal" as the tagger and "its prey" as the ones being chased. Other activities included making Model Magic and Sculpey animals, animal shaped suncatchers, crayon resist paintings, and finding hidden toy animals in the room.

Coming up in December we will be discovering different authors, like Kevin Henkes, Dr. Seuss, and Tomie De Paola.

If there is anything you would like to see in our program, have any questions or just want to check in with us, I invite you to call or stop by and see how we are doing. We always enjoy sharing our fun with visitors!

Dave Leitl
Program Coordinator

Milestones onsite childcare programming is available for all St. Monica School students in Kindergarten through 5th grade. All K-4 and K-5 children participating in the Milestones program are personally escorted to and from class and never leave the safety and security of our school building. Students may be enrolled in the Milestones program for as few as two days per week.

If you have any questions or would like additional information, please contact Milestones at St. Monica School directly by calling (414) 967-3039. You can also reach Dave Leitl, our Program Coordinator, directly at: djleitl@wi.rr.com. Or, if you prefer, simply pop downstairs and see all the activities for yourself!
