

My children represent the third generation attending St. Monica School. Much has changed over those 60+ years, but one thing remains – learning, living, and loving through Jesus. St. Monica School has provided exemplary education for our family, preparing us well for high school and beyond. But more importantly, St. Monica School prepared us all for a faith-filled life, keeping God present for us everyday. It's a wonderful school and a special community of faith. Sending our children to St. Monica School is just another gift we felt we should give them- the gift of education based in the Catholic tradition.
